

TIGRIS™ PROP 41.8%

BROAD SPECTRUM FUNGICIDE FOR ALL-SEASON CONTROL.

Tigris™ Prop 41.8% fungicide helps boost yield potential by guarding crops from more than 20 challenging diseases. The curative and preventative activity of Tigris Prop 41.8% provides long-lasting control. Tigris Prop 41.8% works systemically to protect new growth then as a growth inhibitor to halt disease activity and spread. Use Tigris Prop 41.8% as a versatile and efficient tank-mix partner, at low rates, to elevate your results all season long.

KEY BENEFITS

- Disease protection throughout the growing season
- Curative and preventative
- Long-lasting residual
- Growth inhibitor
- Low-use rates
- Versatile tank-mix partner

KEY USES

- Berries
- Cereals: barley, oats and rye
- Corn
- Peanuts
- Rice
- Soybeans
- Sugar beets
- Tree nuts
- Wheat: Spring and Winter

Refer to label for specific use restrictions.

PRODUCT DETAILS

EPA REGISTRATION NUMBER:
91234-25-92647

ACTIVE INGREDIENT:
Propiconazole 41.8%

FORMULATION:
Micro emulsion

FRAC NUMBER:
3

SIGNAL WORD:
Caution

PACKAGE SIZE:
2 x 2.5 gal

REI:
12 hours

TIGRIS™ PROP 41.8%

Application Information

Tigris™ Prop 41.8% is most effective when applied and allowed to dry before a rainfall. Avoid applying Tigris Prop 41.8% under conditions when uniform coverage cannot be obtained or when excessive spray drift may occur. Do not apply in a manner which results in exposure to humans or animals.

Ground Application

For tree crops, apply Tigris Prop 41.8% in a minimum of 50 gallons of water per acre unless otherwise specified. For all other crops, apply Tigris Prop 41.8% in a minimum of 10 gallons of water per acre unless otherwise specified.

Aerial Application

For tree crops, apply Tigris Prop 41.8% in a minimum of 10 gallons of water per acre unless otherwise specified. For all other crops, apply Tigris Prop 41.8% in a minimum of 2 gallons of water per acre unless otherwise specified.

Chemigation Application

Apply Tigris Prop 41.8% through properly equipped chemigation systems for disease control in the labeled crops. Refer to crop specific use directions for application rates, timing and frequency of application. Do not apply Tigris Prop 41.8% by chemigation to other labeled crops except as specified in the product labeling. When applying this product by chemigation, do not exceed labeled rates or apply more frequently than recommended for conventional application methods. Tigris Prop 41.8%, alone or in combination with other pesticides that are registered for application through irrigation systems, may be applied through irrigation systems. For chemigation application to labeled crops, apply in 0.1 to 0.25 inches of water unless otherwise specified. Chemigation with excessive water may lead to a decrease in efficacy.

Mixing Instructions

When preparing spray mixture, only prepare amount required for immediate use. For best results, thoroughly clean spray equipment before using this product. Agitate the spray solution before and during application.

Application Rate of Tigris Prop 41.8% (fl. oz./A)	Active Ingredient Equivalent (lb. a.i./A)	Acres/Gal of Tigris Prop 41.8%
2.0	0.056	64.0
4.0	0.1125	32.0
6.0	0.169	21.3
8.0	0.225	16.0
10.0	0.28	12.8
12.0	0.34	10.7
16.0	0.45	8.0
20.0	0.56	6.4
24.0	0.67	5.3
30.0	0.84	4.3
32.0	0.90	4.0
