GENERAL INFORMATION

TIGRIS Water Conditioner + S is a water-conditioning agent and surfactant for use with pesticides that are labeled for agricultural, forestry, non-cropland, and right-of-way uses. **TIGRIS Water Conditioner + S** is formulated to meet the surfactant and ammonium sulfate (AMS) recommendation for many glyphosate, glufosinate, paraquat, and diquat products or other herbicides requiring the addition of surfactant and AMS. Hard water cations and high pH can decrease mixability and solubility of certain pesticides, especially Glyphosates, 2,4-D Amines and Garlon salts.

ENVIRONMENTAL HAZARDS: Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters. NOT FOR AQUATIC USE IN CALIFORNIA OR WASHINGTON STATE.

DIRECTIONS FOR USE

REFER TO HERBICIDE LABEL FOR SPECIFIC CROP USE AND APPLICATION RATES. Prior to use, read and follow all directions on this label and on the label of the herbicide

A use rate of 2.5% v/v will deliver 8.5 lbs of AMS per 100 gallons of spray solution. A use rate of 5.0% v/v will deliver 17 lbs of AMS per 100 gallons of spray solution.

1. Fill spray tank half full of water and start agitation.
